we tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last dyspepsia takes hold. Indigestion is just a warning, and if we heed the warning we can easily avoid further consequences. KODOL is a most thorough stomach relief. It digests what you eat and gives the stomach needed rest and greatly assists in restoring it to its normal activity and usefulness. KODOL is sold on a guarantee relief plan. It is sold here by Chas. C. Davis.

### ADJOINING COUNTIES

Suit has been filed at Williamsburg and Judge M. J. Moss made defendant to set aside the act passed by the last Legislature creating a new judicial district known as the Thirty-third. Whitley county was cut off from the Twenty-eighth and put in the Twenty-sixth. Under the last census the State is only entitled to thirty-two districts and it has been claimed if a contest was made the act would not stand. It is the outgrowth, it is claimed, of the fight between the factions of the Republican party in that county.

## A TWO CENT RATE.

Does Kentucky want a two-cent railroad rate? Does the best interest of the State demand such a rate? Is a question of vital importance confronting Kentuckians. The tendency toward a demagogic disturbance of the railroads would inevitably result in the injury of the commercial development of the State for which the city of Louisville and the citizens as a whole throughout the Commonwealth have been making such a noble effort to place where it properly belongs. Development is what Kentucky wants and without the co-operation of the railroads in opening up new territory, what advancement can we hope to make? Development of the rich resources will be worth a great deal more to the State than a "Whack at the rich railroad corporations."

SENATOR GEORGE T. FARIS, of Lancaster, is a candidate for Representative of Garrard in the next Legislature. Senator Faris represented his district in the Senate during the troublesome times of seven years ago, a truer, more conservative man than he did not occupy a seat in the General Assembly and his sound advice was often sought on the grave and perplexing questions which arose almost every moment. If elected, which he evidently will be, Garrard will have one of the best Representatives in the next Assembly.

You may take the dullest and most prosaic town and erect within its borders a busy, thriving manufacturing institution, where large numbers of workmen are employed and a new life is at once imparted to the place. The dull monotony of the past gives way to the sound of the steam whistle and the clang of the shop. The streets no longer look deserted. People move with an active restlessness in strange contrast to the times when no manufacturing was carried on in their midst. The liveliest towns that we have in this country are those wholly devoted to manufacturing. The dreariest towns, where dry-rot is visible on every hand, are those wherein no work shops are to be found. Manufacturing towns are not only more active, but as a rule they are prosperous, as well as being far more enterprising and affording better social and commercial advantages. The typical manufacturing towns are to be found in New England, in fact the Connecticut river may be said to be lined with them. It is invigorating to the mind, as well as to the sight to travel through these towns, which justly may be termed "beehives of industry." An air of thrift

and enterprise is everywhere displayed. The proprietors of the industrial institutions, the tradesmen, the artisans and other citizens exhibit every outward indication of that contentment and happiness which arise from a prosperous condition.

There is a reason for this—a social as well as a business reason. First, the presence of workshops and factories in the midst of a community is in itself a source of activity. These institutions drawing to them daily their scores and their hundreds of workmen, bring life and activity, not for a week, or a month, but as long as they are in operation. But in towns purely commercial, or in lazy, seaport towns where the bulk of the male portions of the population is at sea there is a too perceptible lack of life and animation. This can be better observed than described. But to one standing in a manufacturing town at the morning hour, at noon, or at night, when the workmen are wending their way to and from work, there need be little said to prove whence the vitality of the town arises.

The spirit of universal peace was breathed in New York Tuesday at three meetings addressed by educators and of world-wide prominence. At the afternoon meeting at Carnegie Hall, 5,000 young people responded to an invitation to a gathering organized for their benefit. That intelligence, knowledge and culture, are the things which the great institutions of learning should, and surely are contributed to the cause of general amity, was the consensus of opinion expressed in the speeches of the college presidents who addressed the gathering last night.

Fruit and early vegetation is having a hard time of it this year. The cold spell of last week, while quite severe, came when everything was exceedingly dry and best equipped to resist the frost. While cherries, peaches and other of the most tender fruit were doubtless considerably damaged it was thought that much of the crop had escaped. But this will not help us much now as we had a nother white frost Thursday morning with conditions favoring the destruction of all fruit which had escaped the former freeze. From the present indications the fruit crop in this state is about gone.

John W. Yerkes, of Danville, has resigned as Commissioner of Internal Revenue in order to practice law in Washington President Roosevelt sent Mr. Yerkes a letter expressing his regret and complimenting him highly on his service.

Over in Lexington on Wednesday last week, three colored men, A. W. Titus, of Berea, Prof. F. L. Williams, of Covington, and Jordan C. Jackson, of Lexington, met, and regarding themselves as a committee representing the colored people of Kentucky, passed the following resolutions:

"We, the colored people of Kentucky, regard the taking of Berea College from the negroes as a monumental theft, devised and perpetrated by the present College administration, of which Prof. W. G. Frost is the head and front. We believe that Berea College by reason of the provisions of its endowment, rightfully belongs to the colored people and we propose to investigate our rights and our position will be fully outlined at the proper time." They give out that they have engaged Judge A. R. Burnham, of Richmond, and Judge A. O. Achron, of Boston to institute suit in the Federal Court as soon as the Supreme Court passes on the Day law which forces the separation of the races.

The real work of the National Arbitration and Peace Conference began Monday at New York with Andrew Carnegie presiding over the meetings. During the day a letter was read from President Roosevelt and speeches were made by many men prominent in the affairs of America and of foreign nations. It was understood that Secretary Root voiced the sentiments of the President when he sounded a note of warning that if success is to crown the efforts of those who are working for universal amity their endeavors must be of a practical character, and they must not, by insisting upon the impossible, thereby put off the day when the possible may be accomplished.

He had a splendid time hunting and in other diversions while in his travels toward the "setting sun." Mr Adams carries photographs of a magnificent specimen of the mountain lion which he killed on January 14th last at foot of Pikes Peak a short distance from Colorado Springs. A New York man purchased the carcass for \$100 and had it mounted by a taxidermist. Mr. Adams feels proud over the fact that he killed a larger lion than Teddy did.

Mrs. Martha Lewis, aged 79 years and three months, died Saturday afternoon at the old home three miles West of here on the Somerset road. Mrs. Lewis who was Miss Martha Stewart before her marriage, was united in the holy bonds of matrimony to Mr. David N. Lewis 57 years ago, to which union eleven children were born, eight of whom are still living: Judge S. D. Lewis, present County Attorney of this county, W. H. Lewis, who lives at the old home, Mrs. W. B. Whitehead, of this place, Mrs. J. J. McCall, of Mareburg, Mrs. W. T. McLoughlin, of Albany, Oregon, Ben. F. Lewis, of France, Iowa, Roy, Alberta, Canada, and Allen, Atchison, Cal. For thirty-seven years it was a struggle against death and for three weeks it seemed that each day would be the last. When a very young woman she united with the Christian church and had ever since been a devout member. The remains were laid to rest Monday in the family grave yard beside her husband who preceded her fifteen years.

The case of Bob Lee for the striking of Tom McClure which was before the court at the time of our last issue, the jury returned a verdict of guilty fixing his punishment at 18 months in the pen. But little business has been transacted this week. Only two jury cases having been tried, one of W. H. Laswell against the Adams Express Co., resulting in a judgment of \$65 for the plaintiff. The other was that of John C. Whitt against the Western Union Tel. Co., \$400 for plaintiff. The case of May against the New Livingston Coal Co., dismissed. The indictments against A. H. Hamlin and James Norton, charged with complicity in the killing of James and Harlan Arnold were dismissed. Public sentiment has favored this from the beginning, as there are but very few people who ever believed that Hamlin and James Norton had anything to do with the crime. Lewis Cooper, who was also held under the same indictment, was discharged last week. Court will adjourn to-morrow.

THE YOUNG MEN'S FRIEND:—Last week Freddie Durham, aged fifteen years, was arraigned in court on a very serious charge. C. C. Williams was employed to defend him and becoming impressed with the young man, Mr. Williams became very much interested in the outcome of the case. Freddie is an exceptionally bright boy and his every appearance indicates that all that is necessary is the cultivation of those faculties with which he is so abundantly blessed, to make him a man who would be an honor to any county or community. No one saw and realized this more readily than Mr. Williams, who is a splendid judge of human nature. In his argument before the jury he made a strong effort in the presentation of the facts in the case, but closed by saying to the jury that he could read in the countenance of Freddie, more than that of a degenerate boy, stating that if the jury did release the young man that he (Mr. Williams) would see that he was promptly placed in a good home and started to school. While the jury stood eight for conviction for two years in the pen, to four for acquittal, the promise of Mr. Williams counted more than all and the young man was set free. On Monday morning we saw Freddie leaving Mr. Williams' home, with new clothes on from head to foot, books under his arm, making his way for the Brown Memorial School. How different may be the life and life's work of this young man, because of the kind and gracious deed of a man who has never lost an opportunity to do for deserving young men, when help was needed. Many such deeds of charity are to the credit of Mr. Williams many of which the public know nothing about.

DEAD.—Mrs. Mary Bethurum, wife of Judge D. P. Bethurum, died Wednesday after only a few hours serious illness. Mrs. Bethurum had been in poor health for more than a year, at which time she suffered a light stroke of paralysis, but her physician and family believed that she was slowly recovering from this attack and the second attack which came Wednesday morning, resulting in her death a few hours later, came as a great shock to the family. Only the husband and two sons who are at home were present when the end came. Judge L. W. Bethurum, who started as soon as he received the word, and although he had only a few miles to go, did not reach home in time to see his mother alive. Hon. B. J. Bethurum, whose home is in Somerset, arrived on the afternoon train yesterday. The remains were brought here and taken to the home of Miss Mat Williams, where short and appropriate services were conducted by Rev. Briscoe, after which the burial took place in Elmwood Cemetery.
